

JICA Project for Provincial Tourism Website

This Inhambane Provincial Tourism website was established in partnership with the Provincial Directorate of Tourism Inhambane (DPTURI) and the Japan International Cooperation Agency (JICA) Tourism Project Team, as part of the Destination Marketing and Promotion (DMP) Project.

One of the main objectives, of this Project, is to enhance tourism to Inhambane Province through emphasizing on the development of community-based tourism (CBT) products, and services, with hopes, and expectations, that members of the local community will directly benefit from the future growth of tourism to the province.

Developing new tourism products that directly involve, and benefit, the local communities is also a vital initiative of this Project. As a result five (5) Pilot Projects have been established within Inhambane Province. Two (2) are locally based tour guide & operators, two (2) are traditional arts & craft (souvenir) producers, and one (1) is an organic farm which is endeavouring to provide vegetables and fruits to local accommodations and restaurants.

Further details of each Pilot Project are available on a separate section of the site. Please take a moment to view the CBT products and services posted. Thank you.
